

JOIN THE MISSION

PROFESSIONAL EXPERTISE & COLLABORATION GUIDE

WHY WE'RE BUILDING THIS

Technology should help people be understood—not require them to constantly defend themselves. Bully Buddy is building human-centered AI and objective documentation tools that improve safety, accessibility, and accountability across education, workplaces, and communities.

WHO WE'RE LOOKING FOR

- AI & Software Engineering
- Education & School Leadership
- Privacy, Legal & Compliance
- Accessibility & UX Design

- Grant Writing & Philanthropy
- Strategic Partnerships
- Communications & Public Policy

CURRENT PRIORITY PROJECTS

BC3 Protocol

Building secure, consent-driven documentation infrastructure.

Safety Buddy

Expanding community and institutional pilot programs.

Neuro Buddy

Developing neurodiversity-centered accessibility tools.

Enterprise Integrations

Seeking advisors and implementation partners.

HOW YOU CAN HELP

Whether you contribute technical expertise, strategic guidance, research, funding, pilot opportunities, or introductions, your support helps build systems that protect people through understanding.
